

4. (Amended) A composition according to claim 1 wherein said benefit agent is selected from perfumes, hygiene agents, insect control agents, fabric softening agents, soil release agents, bleaching agents, dye fixatives agents, brighteners, latex, resins, and/or mixtures thereof.

pub 5  
B2 (Amended) A composition according to claim 1 wherein said chemical component is linked to said deposition aid via a linking region.

pub 8  
B3 (Amended) A composition according to claim 1 wherein said chemical component is linked to said deposition aid or to said linking region via a weak bond.

9. (Amended) A composition according to claim 1 wherein said chemical entity is comprised at a level of from 0.00001% to 50 % by weight of the total composition.

10. (Amended) A composition according to claim 1 wherein said polymer is selected from soil release polymers, dispersants, anti-redeposition polymers, dye transfer inhibitor polymers, flocculant polymers, and/or mixtures thereof.

11. (Amended) A method of treating a fabric with a composition comprising a chemical entity and a polymer according to claim 1, for providing sanitation and/or insect control.

- pub B4 12. (Amended) A method of treating a fabric with a composition comprising a chemical entity and a polymer according to claim 1, for providing fabric cleaning including stain/soil removal, anti-redeposition of soils and/or whiteness maintenance.

13. (Amended) A method of treating a fabric with a composition comprising a chemical entity and a polymer according to claim 1, for providing fabric care improved fabric care including color care and/or fabric softness.
